Home Base

Rosie Robotics is part of the F.I.R.S.T. (For Inspiration and Recognition of Science and Technology) community and competes in FRC and FTC leagues.

Rosie Robotics works to teach science, technology, math and engineering to anyone willing to learn. Rosie robotics also tries to spread the F.I.R.S.T. idea of gracious professionalism. The belief is its fun to win but you can always take a minute out of your time to help and be kind to a fellow team mate or any other team.

To contact us:

Rosie Robotics
760 Cooper Street
Agawam, MA 01001

Phone: 413-821-0530

Mission Statement

As a team of diversified people, we will share our talents, abilities, and knowledge in creating an atmosphere of gracious professionalism in all that we do.

We are all students, teachers, and mentors. We teach and learn from each other regardless of age, gender, and professional position.

We will challenge ourselves to stretch the boundaries of our imagination and creativity and not restrict ourselves by thoughts of limitation of inability.

We will share our talents and knowledge with other teams. We understand that through sharing, we develop camaraderie, tolerance, and new ideas. We understand through the connection of generations and the diversity of education, we as people will grow within our communities and ourselves in the present and the future.
